

**FOR THE FIRST TIME IN FOUR YEARS!!!
THE MMA MARKET TIMING CONFERENCE
WILL TAKE PLACE IN THE UNITED STATES . . .**

MMA FINANCIAL MARKET TIMING SEMINAR

October 13-15, 2006

At the luxurious

POINTE HILTON TAPATIO CLIFFS RESORT Phoenix, Arizona

Conducted by: Raymond A. Merriman
Editor of the "MMA Cycles Report"

What You Will Learn:

This particular 16-hour seminar will focus on the MMA market timing techniques as they apply to the U.S. stock indices, Precious Metals markets, and Grain prices (particularly Corn). Both long-term and short-term cycles will be addressed, with projections for each of these markets.

The U.S. stock market is at a critical point in its four-year cycle, and shortly after that, its even longer-term cycles. Precious metals have already begun a move that could last well into the next decade, and soon Corn prices could start a similar move. Each of these markets present potentially great opportunities for investors and traders alike. And the key to taking advantage of those opportunities has much to do with timing the markets correctly - whether long-term cycles as an investor, or short-term cycles as a trader. The purpose of this course will be to teach each participant how to identify optimal periods for trading and investing, using those market timing methodologies developed by Raymond A. Merriman, Editor of the *MMA Cycles Report*.

"The atmosphere was almost electrifying. The information was exceptional. Using the geocosmic signatures and market techniques taught in your seminar, I have been able to double, triple, quadruple, and in one happy instance I have earned 15 times my investment! Both the research and calibre of people who attend are exceptional."

**M.R., an options trader, who attended
four previous MMA Seminars**
